Skills

Introduction

The learning skills is a non profit institution dedicated to uplifting orphans and underprivileged children. We also nurture and educate children and young adults with special needs, helping them reach their maximum potential. We promote independence and improve quality of life for all our students in a secure environment so they can lead meaningful lives.

Located in Clifton karachi. The learning skills is Pakistan's first specialized institute for children with intellectual disabilities and mainstream children. The learning skills is the brainchild of Maha Memon who serves as its founder and president.

Join us in our mission!

We envision a thriving future for every young Pakistani, irrespective of their background or circumstances. We believe in empowerment to break the cycle of poverty and deprivation to create a resilient Pakistani society.
Join us in our mission!

My vision is to uplift every orphan's and Underprivileged life, leaving a permanent mark that ignites their potential and provides purpose. Together, let's create a future where our youth thrive, and endless possibilities unfold.

Services

PRE-ASSESSMENT

The pre-assessment is your first step at TLS to determine if additional testing or treatment plans are required.

TREATMENT PLAN

The results of these tests can provide valuable insights and information to your therapist.

By using a combination of intelligence, achievement, personality, and emotional tests we can create an individual profile to help us then curate a customized and effective treatment plan.

Behavior

This type of therapy focuses on modifying problematic behaviors through techniques such as classical and operant conditioning, social learning theory and cognitive-behavioral therapy.

The goal of behavior therapy is to help clients change behaviors that are causing distress or impeding progress in their lives.

Play

Play therapy is a form of therapy that uses play as a means of communication. It is often used with children and is based on the idea that 'play' can help children express their thoughts and feelings in a safe and controlled environment.

Play therapy can be used to help children overcome anxiety, depression, behavioral problems and other mental health challenges.

Remedial

This is a multi-sensory therapy designed to assist children or students with learning difficulties such as (Dyslexia, Dyscalculia or Dysgraphia). It focuses on imparting core skills that target reading, writing and math using a sensory approach.

It covers all areas of academic weaknesses to help your child to achieve their goals.

WORKSHOP AND TRAININGS

OTHER SERVICES

We offer a variety of workshops and training programs aimed at helping educators, parents and individuals to acquire the knowledge and skills they need to manage their challenges.

These workshops cover a range of topics such as the latest research and best practices for differently abled individuals and learning disorder treatments, practical strategies for managing symptoms and useful tips for improving daily functioning.

PARENTAL COUNSELING

The learning skills provides parental counseling services in a safe and supportive environment to support the families of children diagnosed with autism, Down syndrome and other learning disorders.

These counseling sessions provide tools and resources parents need to better understand their child's condition and to help them manage their symptoms more effectively.

A Home Gym

Zumba and Music Class

Quran Class

You have the power to transform lives. By taking action today, you can become a part of TLS's efforts to create a brighter future for children and adults with disabilities. Your Donations and Zakat contributions will allow us to continue the important work we do to promote the value, acceptance and inclusion of people with disabilities in mainstream society.
